**Re: Coral Waterway Maintenance Dredging  
DPEP File No. ER0301-022**

Dear Mr. Ward:

This is to acknowledge receipt of your application for an environmental resource license to excavate approximately 80 cubic yards of material from the Coral Waterway at the NE 38<sup>th</sup> Street Bridge, in the City of Oakland Park.

This letter constitutes notice that a license will be required for your project pursuant to Section 27-333 of the Broward County Natural Resource Protection Code.

Your application for license is incomplete. Please provide the information listed on the attached sheet promptly. Evaluation of your proposed project will be delayed until all requested information has been received.

Please be advised that Section 27-55(a)(4) of the Natural Resource Protection Code states that "a license shall be denied if the Applicant does not supply a complete application or requested information needed to evaluate the facility's or project's ability to comply with the provisions of the Code within sixty (60) days of the Department of Planning and Environmental Protection (DPEP) request."

If you have any questions, please contact Julie Krawczyk at the above address.

Sincerely,

A handwritten signature in black ink that reads "Kent Edwards".

Kent Edwards, Manager  
Wetlands/Uplands Resources

## COMPLETENESS SUMMARY

### ENVIRONMENTAL RESOURCE LICENSE APPLICATION

File No. ER0301-022

DATE RECEIVED: January 22, 2003

DATE REVIEWED: February 27, 2003

BY: Julie Krawczyk

The following items were omitted or were found incomplete in your application as submitted.

#### METHODOLOGY AND WATER QUALITY [Section 27-334(b)(4)]

- [1] A detailed description of the location where the project is proposed and of the materials, equipment, and methods to be used, and any other pertinent information that is necessary to accurately and completely review the proposed work. This must also include a detailed description of the methods and materials which will be employed to protect the regulated aquatic resource or jurisdictional wetlands of Broward County from environmental harm. Specifically address the sediment disposal method, including the locations of equipment and interim and final disposal sites.

#### ADDITIONAL INFORMATION [Section 27-334(b)(5)]

- [2] Please provide a biological survey that indicates the location of any existing vegetation, oysters, or other benthic resources. If any existing resources are found, please include the common and scientific names of these species. Please note that should impacts be proposed to any natural resource, avoidance and minimization of impacts must be demonstrated prior to consideration of compensatory mitigation.
- [3] The City of Fort Lauderdale has indicated that they would like to perform exploratory dredging activities to locate utilities within the proposed dredge area. Their activities will need to be licensed separately under a General License. Please be aware that there are existing utilities within the proposed dredge areas and that coordination with the City of Fort Lauderdale should be used to ensure that the utilities are not disturbed.

Dear Julie:

**CORAL WATERWAY CANAL MAINTENANCE DREDGING  
AT NE 38th STREET BRIDGE, CITY OF OAKLAND PARK**

On behalf of the City of Oakland Park, we are withdrawing the permit application submitted for the referenced work. Dredging the canal over the existing utilities, which are crossing under the canal, would remove the necessary cover over the utilities. For this reason, Tt WHS recommended the City not have the canal dredged.

Thank you for your time and effort on this application. Do not hesitate to call if you have any questions

Sincerely,

Tetra Tech WHS

Tracy L. Ward, P.E.  
Project Manager
